Udacity
2465 Latham St
Mountain View, CA 94040

Dear Careers Engineering Team,

I am excited to apply for the Full Stack Web Developer position on your team.

With 3+ years of experience in creating and delivering user-centric applications and solutions, I look forward to bringing my strong creative, technical, and analytical skills to the website design and develop.

I am a passionate developer dedicated to creating attractive website design and a career-changer who has experienced first-hand the transformational power of online learning. I would love to work for Udacity.

I collaborate closely with the application team to develop and implement web applications, ensuring optimal functionality, quality, and reliability.

Throughout the course of my career, I have perfected my developing specifications and requirements and designing software applications abilities. I am a capable and consistent problem-solver skilled at prioritizing and managing projects with proficiency.

In my previous role, I contributed problem-solving, organization, and troubleshooting bugs toward team efforts and business improvements.

I hope to bring to Udacity my fresh perspective as a developer with an arts background and my adaptability and diligence as a career-changer. I am available to meet in person in San Francisco. I look forward to speaking with you to further discuss my qualifications. Thank you for your consideration.

Best Regards,

Yehia Zakaria
